PRIME CONNECT DOORS & CABINETS SOLUTIONS

Manufacturer & Supplies

PRIME CONNECT DOORS & CABINETS SOLUTIONS is a multinational enterprise that seamlessly integrates industry and trade with a strong legacy of over 25 years in the manufacturing sector.

Originally established in China. Our company has built a reputation for quality and innovation in the field of architectural decoration and construction materials.

Expanding our vision and commitment to excellence.

we have recently launched

PRIME CONNECT DOORS & CABINETS SOLUTIONS with a full-fledged manufacturing unit in UAE dedicated to serving the region with premium quality products and services.

We are specialized in the production and supply of:

- Wooden Doors
- MDF(Medium Density Fireboards) Doors
- WPC(Wood Plastic Composite) Doors
- Iron/Steel Doors
- Aluminium Doors
- Emergency Exit Doors
- Wardrobe and Kitchen Cabinets
- MDF Core Panels & MR MDF Core Panels
- Marine & Construction & Core Panel Plywood
- Melamine Faced MDF & Film Faced MDF Panels
- Melamine Faced & Film Faced Plywood

Our operations are supported by a robust network of six strategically located factories:

- Door Factory - UAE.
- WPC Factory - Jiangxi, China.
- Wooden Door Factory - Zhejiang, China.
- Cabinet Factory - Zhejiang, China.
- Steel Entrance Door Factory - Zhejiang, China.
- Fireproof Door Factory - Shanghai, China

With a strong supply chain and advanced R&D capabilities.

PRIME CONNECT DOORS & CABINETS SOLUTIONS serves a wide range of projects including commercial and residential real estate, schools, hospitals and industrial enterprises.

We also offer customized solutions for private properties such as villas and apartments.

We warmly welcome partners and clients from around the globe to visit our factories in UAE and China explore collaboration opportunities and work together toward mutual success

PRIME CONNECT DOORS & CABINETS SOLUTIONS

Your trusted partner in quality manufacturing and supplies

MDF & MR MDF Core Panels

“Quality & Reliability”

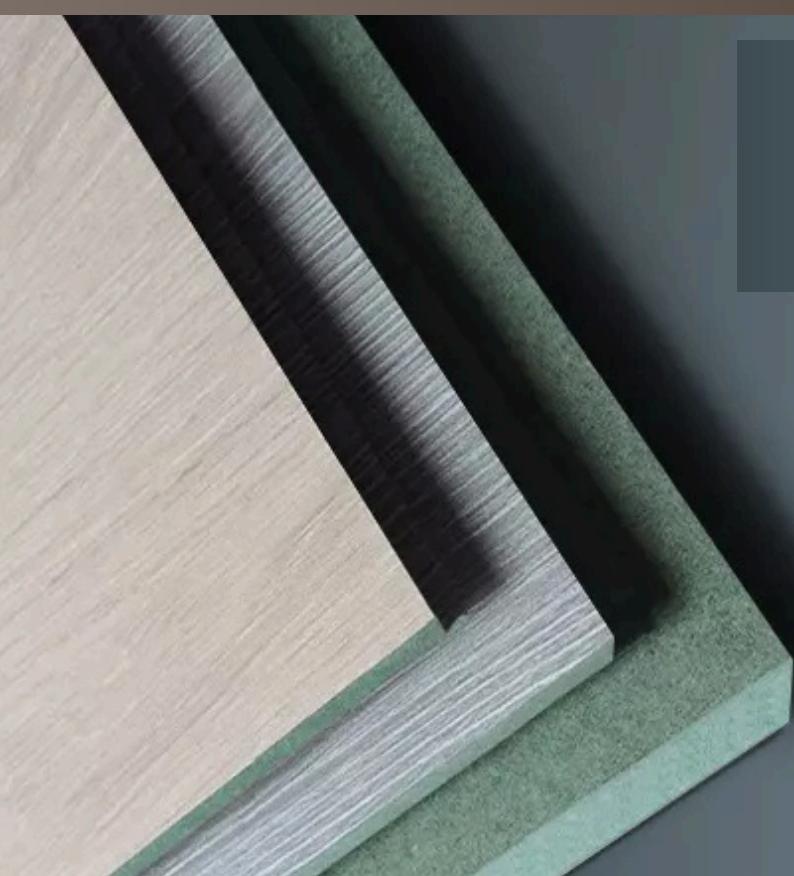

MDF CORE PANELS

Medium Density Fiberboard panels designed with a smooth surface and consistent strength, making them perfect for furniture, cabinets, doors, and various interior applications.

MR MDF CORE PANELS

Moisture resistant MDF board is a modified triamine cyanide adhesive or mdi type adhesive, and the use of water repellent is improved to achieve moisture-proof performance.

Product Specification

“Quality & Reliability”

Product Name	MDF Core Panel Product Specification	MR MDF Core Panel Product Specification
Thickness	1-25mm or customized as per clients' requirements	1-25mm or customized as per clients' requirements
Sizes	1220*2440*3-25mm, 1830*2440*2.7/3/8/12/16/18mm, 1830*2750*9-25mm, (1830+610)*3660*8/12/16/18/25mm, 1220*2800*12/16mm 1300*2800*6/8/17/18mm, 2070*2440*4.5/7/11/13/16mm 2070*2800*4.5/5/7/8/11/13/16mm; 2200*2800*5/8/12/16/18/25mm,etc(or customized as per clients' requirements)	1220*2440*3-25mm, 1830*2440*2.7/3/8/12/16/18mm, 1830*2750*9-25mm, (1830+610)*3660*8/12/16/18/25mm, 1220*2800*12/16mm 1300*2800*6/8/17/18mm, 2070*2440*4.5/7/11/13/16mm 2070*2800*4.5/5/7/8/11/13/16mm; 2200*2800*5/8/12/16/18/25mm,etc(or customized as per clients' requirements)
Glue	E2, E1, EO, CARB	E2, E1, EO, CARB
Density	680kgs/m3 ~ 1000kgs/m3	680kgs/m3 ~ 1000kgs/m3
Moisture	4-12%	4-12%
Surface finish	Melamine paper	Melamine paper
Color	Solid colors, wood grain colors, fancy colors, stone colors,etc or customized as per clients' requirements	Solid colors, wood grain colors, fancy colors, stone colors,etc or customized as per clients' requirements
Material	Poplar, Pine and hardwood combi	Poplar, Pine and hardwood combi
Usage	Furniture, kitchen, construction, decoration, Carving, counter, office table, ceiling,etc.	Widly used for furniture(Kitchen cabinet, wardrobe and bathroom cabinets), doors ,flooring, packing, construction-decoration materials etc.
Certifications	CARB, CE,ISO9001:2000, ISO14001	CARB, CE,ISO9001:2000, ISO14001

APPLICATIONS

“Quality & Reliability”

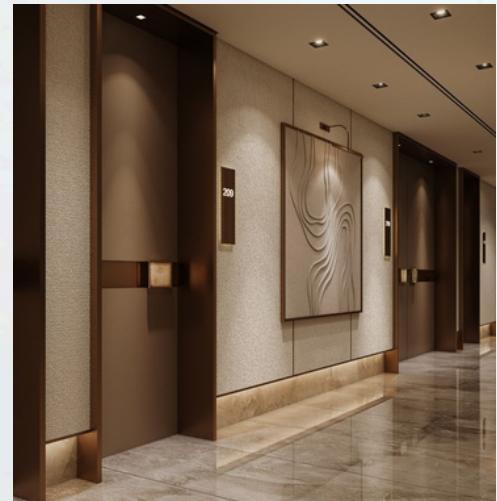

Residential Doors

MDF panels are widely used in homes for interior doors because they are smooth, durable, and cost-effective.

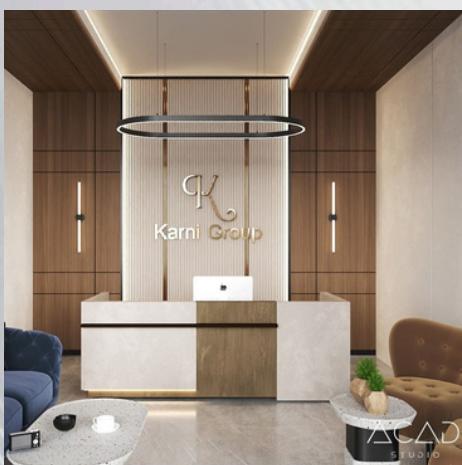

Office Partitions & Doors

Use: MDF panels are suitable for office cabins and doors due to their uniform surface and ability to be laminated or painted.

Hotels & Hospitality Interiors

MDF door panels are commonly used in hotels for room doors, giving a premium yet budget-friendly look.

Commercial Spaces (Shops & Showrooms)

MDF panels can be used for entrance or internal doors in shops, boutiques, and showrooms because they can be customized with veneers/laminates.

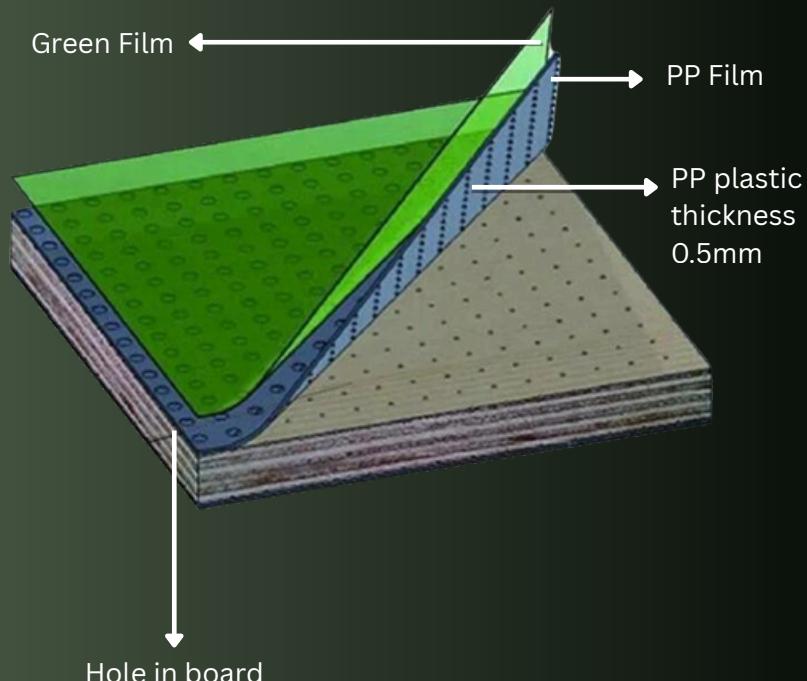

Marine Film Faced & Melamine Faced Plywood & Commercial Plywood

“Tough & Long-lasting”

MARINE & CONSTRUCTION PLYWOOD

A high-quality, water-resistant plywood designed to withstand moisture and humidity, making it ideal for kitchens, bathrooms, boats, outdoor furniture and heavy-duty construction

CORE PANEL PLYWOOD

Core Panel Plywood – Strong and stable plywood made with layered wood veneers at the core, ideal for doors, partitions, furniture, and wall panels

“Tough & Long-lasting”

Product Specification

“Tough & Long-lasting”

Product Name	Marine Plywood Product Specification	Construction Plywood Product Specification
Types	Marine plywood is categorized based on its core material, such as Okoume, Birch, and Poplar.	Construction plywood includes CDX plywood, structural plywood, and film-faced plywood.
Thickness	Available in various thicknesses, including 3mm, 4mm, 6mm, 9mm, 12mm, 15mm, 18mm, and 21mm	Available in various thicknesses, including 1/2", 3/4", 5/8", 7/16", 12mm, 15mm, 18mm, and 21mm.
Strength	Exhibits high strength and durability, with a bending strength of up to 85.1 MPa and a modulus of elasticity of up to 9500 MPa.	Exhibits moderate to high strength, with some types having a bending strength of up to 40 MPa.
Resistance	Waterproof and resistant to moisture, with some types having a formaldehyde emission standard of E0 or E1.	May have some resistance to moisture, but not entirely waterproof.
Core Material	Common core materials include Poplar, Hardwood, and Finger Jointed core.	Common core materials include Pine, Poplar, and Spruce.
Turn over uses	<ul style="list-style-type: none"> • Boat Building & Ship Decking • Outdoor Furniture & Garden Structures • Construction & Framework • Bathrooms & Kitchens • Interior Design & Paneling • Transport Industry 	<ul style="list-style-type: none"> • Flooring • Roofing • Wall Sheathing • Concrete Formwork (Shuttering) • Partitions • Packaging & Crates

APPLICATIONS

“Tough & Long-lasting”

Boat Building

used in boat building for its water resistance and durability.

Construction & Formwork

used for formwork, flooring, and scaffolding due to its strength and stability.

Construction Shuttering

Plywood is used to make moulds for pouring concrete, ensuring smooth and strong structures.

Packaging & Crates

Plywood is used for making boxes and crates for safe transport and storage of goods.

Film Faced MDF & Melamine Faced MDF Panels

Manufacturer & Supplies

“Durable & Stylish”

FILM FACED MDF PANELS

A strong and durable panel with a smooth film coating that provides resistance to moisture, wear, and abrasion. It is widely used in construction formwork, shuttering, and other heavy-duty applications where reusability and strength are essential.

MELAMINE FACED MDF PANELS

An elegant and durable board with a melamine-coated surface that offers a decorative finish and resistance to scratches and stains. Ideal for furniture, cabinets, wall paneling, and interior décor.

Product Specification

“Durable & Stylish”

Product Name	Film Faced MDF Panels Product Specification	Melamine Faced MDF Panels Product Specification
Thickness Sizes	Ranges from 2 mm to 25 mm, with common options like 9 mm, 12 mm, 15 mm, 17 mm, 18 mm	Also ranges from 2.5 mm to 25 mm
Glue	Waterproof phenolic (WBP), melamine WBP, or formaldehyde-grade glues (E0, E1, E2)	Uses E0/E1/E2 bonding systems, and can include melamine glue depending on the application
Density	Birch plywood with density between 600–680 kg/m ³ ; core materials include birch, poplar, pine, or a combination	Wood fiber core from poplar, pine, hardwood, or combinations
Moisture	Approximately 8–14 % at shipment; water absorption ≤ 10 %	Standard moisture resistance (not marine-grade); ideal for dry interiors
Surface finish	Film-faced surfaces in black, brown, red, matte or textured finishes	Options include plain, various melamine finishes (matt, textured, high-gloss, embossed), with colors ranging from solid to wood grains, cloth or marble patterns
Color	Veneer options include natural wood grains like birch, oak, walnut, beech, cherry, or solid colors with UV/matte/gloss coating	Solid colors, wood grain colors, fancy colors, stone colors,etc or customized as per clients' requirements
Material	High-quality hardwoods (commonly birch, poplar, eucalyptus, pine) or a combination for strength.	Made from wood fiber, typically poplar, pine, or a combination (“combi”) – offering a stable and lightweight core.
Usage	Suited for furniture, interior decoration, and wood flooring	Widely used for furniture, interior decoration, and as a wood flooring material. Mainly intended for indoor environments; not specified as marine-grade or moisture-resistant for outdoor exposure.
Certifications	CARB, CE, ISO9001:2000, ISO14001	CARB, CE, ISO9001:2000, ISO14001

APPLICATIONS

“Durable & Stylish”

Shelving & Racks

Strong and stylish option for storage shelves in homes or shops.

Doors & Panels

Provides smooth and durable surface for interior doors.

Hotel & Restaurant Interiors

Adds warmth and elegance to hospitality spaces.

False Ceilings

Enhances interiors with decorative wooden ceiling panels.

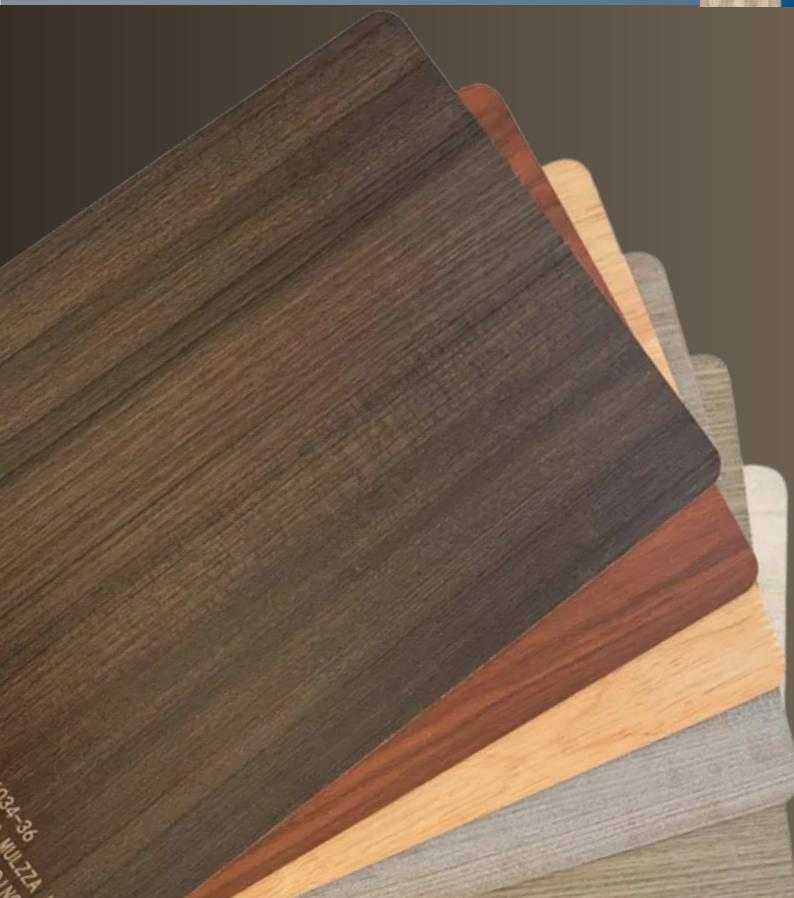

Film Faced & Melamine Faced Plywood

“Durable & Stylish”

FILM FACED PLYWOOD

Film Faced Plywood is a durable, water-resistant plywood coated with a protective film, widely used for concrete formwork and construction

MELAMINE FACED PLYWOOD

An elegant and durable board with a melamine-coated surface that offers a decorative finish and resistance to scratches and stains. Ideal for furniture, cabinets, wall paneling, and interior décor.

Product Specification

“Durable & Stylish”

Product Name	Film Faced Plywood Product Specification	Melamine Faced Plywood Product Specification
Thickness	1-25mm or customized as per clients' requirements	6-25mm
Sizes	1220x2440mm, 1535x2440mm 1830x2440mm or as clients requirement	1220X2440X18mm,1220X2440X15mm or as per customers' required specifications
Glue	E2, E1, E0, CARB	E0,E1,E2,MR
Density	680kgs/m3 ~ 1000kgs/m3	680-780KG/m3
Moisture	4-12%	8-20 %
Surface finish	VENEER	Melamine Paper
Color	Solid colors, wood grain colors, fancy colors, stone colors,etc or customized as per clients' requirements	solid color(white,black,blue,yellow,red etc.);wood grain(cherry,beech,walnut,teak etc.) cloth grain
Material	Poplar, Pine and hardwood combi	Wood Chips(Poplar,Pine,Combi etc.)
Usage	It is widely used in furniture manufacturing, such as beds, tables, cabinets, etc. It is also used in building decoration, like wall panels, ceilings, etc. Moreover, it can be used to make display racks, decorative moldings, etc., enhancing the aesthetics and quality of the space.	Widely used for High-end Furniture Wardrobe/Kitchen Cabinet/TV Cabinet/Closets
Certifications	CARB, CE,ISO9001:2000, ISO14001	CARB, CE,ISO9001:2000, ISO14001

APPLICATIONS

“Durable & Stylish”

Furniture Manufacturing

Used for making strong, stylish, and durable furniture pieces.

Cabinets & Wardrobes

Ideal for modular kitchens and wardrobes with smooth finishes.

Partitions & Displays

Strong and decorative option for office and retail partitions.

Shelving

Durable and resistant to stains, making it suitable for shelves in homes and shops.
